Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1, 3-9 and 16-20 are rejected under 35 U.S.C. § 102(e) as being anticipated by Garudadri et al, U.S. Patent No. 6,519,479 (hereinafter Garudadri).

Regarding claim 1, Garudadri shows with respect to a call originated to a call destination number, a method to update the voice activated dialing (VAD) directory associated with an originator of the call with the call destination number, the method comprising:

receiving an instruction to update the VAD directory;

recording a VAD command for the call destination number;

updating the VAD directory with an update including the VAD command associated with the call destination number (see Figures 5 and 7).

Regarding claim 3, see column 7 and Figure 8.

Regarding claim 4, see column 7.

Regarding claim 5, see column 10.

Regarding claim 6, see Figures 7A-B.

Regarding claim 7, see Figures 7A-B.

Regarding claim 8, see Figures 7A-B.

Regarding claim 9, see Figures 7A-B.

Regarding claim 16, Garudadri discloses a method for updating a voice activated dialing (VAD) directory, comprising:

- receiving an instruction to update the VAD directory;
- determining a call destination number to be included as part of an update to the VAD directory;
- recording a VAD command for the call destination number;
- updating the VAD directory with the update including the VAD command associated with the call destination number (see Figures 5 and 7).

Regarding claim 17, see Figure 4.

Regarding claim 18, see Figure 8.

Regarding claim 19, see Figure 4.

Regarding claim 20, see Figure 7A.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 2 and 10-15 are rejected under 35 U.S.C § 103(a) as being unpatentable over Garudadri in view of Meche, U.S. Patent No. 6,393,304 (hereinafter Meche).

Regarding claim 2, Garudadri does not explicitly teach the call to the call destination number comprises a VAD call. All the same, Meche discloses this limitation (column 1). Hence it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Garudadri with the VAD call of Meche. This modification would have improved the convenience of Garudadri by allowing the originator to place a call by speaking the destination number as suggested by Meche.

Regarding claim 10, Garudadri shows with respect to a voice activated dialing (VAD) call, a method to update the VAD directory associated with an originator of the VAD call with the call destination number, the method comprising:

- determining the call to the call destination number ended;
- asking the originator whether to update the VAD directory;
- receiving an instruction to update the VAD directory;
- receiving from the originator a VAD command for the call destination number;

updating the VAD directory with an update including the VAD command associated with the call destination number (see Figures 5, 7 and 8).

Garudadri does not explicitly teach the call to the call destination number comprises a VAD call. All the same, Meche discloses this limitation (column 1). Hence it would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Garudadri with the VAD call of Meche. This modification would have improved the convenience of Garudadri by allowing the originator to place a call by speaking the destination number as suggested by Meche.

Regarding claim 11, see column 10 of Garudadri.

Regarding claim 12, see Figures 7A-B of Garudadri.

Regarding claim 13, see Figures 7A-B of Garudadri.

Regarding claim 14, see Figures 7A-B of Garudadri.

Regarding claim 15, see Figures 7A-B of Garudadri.
